JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Ac impedance
Impedance of porous electrodes (Lasia) 27
Silver reduction in a thiosulphate + nitrate solution: study of a CE reaction scheme by means of polarization curves and ac impedance (Vandeputte et al.) 249
Alkaline electrolyte
Cathodic formation of a hydroxyde adsorbate on copper (111) electrodes in alkaline electrolyte (Härtinger et al.) 335
Alloys
Electrodeposition of zinc + cobalt alloys: inhibitory effect of zinc with convection and pH of solution (Gómez, Vallés) 177
Amperometric biosensors
A study of the kinetics of the reaction between ferrocene monocarboxylic acid and glucose oxidase using the rotating-disc electrode (Bartlett, Pratt) 53
Amperometric enzyme electrode
Amperometric enzyme electrode for sucrose determination prepared from glucose oxidase and invertase co-immobilized in poly(vinylferrocenium) (Gülce et al.) 217
Anodic infrared spectroelectrochemistry
Anodic infrared spectroelectrochemistry of mono- and dinuclear complexes containing the $(\eta^5\text{-}C_5H_4R)Mn(CO)_2L$ moiety (L = CO or PR_3) (Atwood et al.) 279
Anomers
On the electrochemical reactivity of anomers:-electrocatalytic oxidation of α- and β-D-glucose on platinum electrodes in acid and basic media (Largeaud et al.) 261
Aqueous solutions
Fullerene film electrodes in aqueous solutions. Part 1. Preparation and electrochemical characterization (Szucs et al.) 191

Band microelectrodes
Theory of ECE processes at hemicylinder and band microelectrodes (Alden et al.) 11
Bilayer electrodes
Electrochemical responses of bilayer electrodes with Prussian blue as the 'inner' layer and electroactive cation-incorporated Nafion® as the 'outer' layer (Mortimer) 79
Bioelectrochemical electrodes
Bioelectrochemical response of the polypyrrole xanthine oxidase electrode (Xue, Mu) 241
Biosensor
Characterization of regenerated silk fibroin membrane for immobilizing peroxidase and construction of an amperometric hydrogen peroxide sensor employing phenazine methosulphate as electron shuttle (Qian et al.) 157
Biosensors
Stability of polypyrrole and poly(3,4-ethylenedioxythiophene) for biosensor application (Yamato et al.) 163
Butler–Volmer equation
Impedance of porous electrodes (Lasia) 27

Carboxymethyl cellulose
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171
Catalytic methods
Cobalt hexacyanoferrate modified microband gold electrode and its electrocatalytic activity for oxidation of NADH (Cai et al.) 185
Cd(0001) electrode
Adsorption of iodine ions on a quasi-perfect Cd(0001) electrode (Popov et al.) 301
Cell time constant
Simulation of electrochemiluminescence produced by a high-frequency square-wave potential waveform. Effects of ohmic drop and cell time constant on electrode potential, current and light emission (Pastore et al.) 19
CE mechanism
Measurement of fast kinetics with the microjet electrode: the CE mechanism (Martin, Unwin) 325
CE reaction
Silver reduction in a thiosulphate + nitrate solution: study of a CE reaction scheme by means of polarization curves and ac impedance (Vandeputte et al.) 249
Chemically modified electrodes
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Chemisorption
Adsorption of iodine ions on a quasi-perfect Cd(0001) electrode (Popov et al.) 301
Coadsorption
A comparative electrochemical study of the coadsorption of bis-[10-(ferrocenylcarbonyl)decyl] disulfide and 10-ferrocenylcarbonyldecanethiol with linear alkane disulfide and alkanethiol compounds on vapor-deposited gold surfaces (He et al.) 305
Cobalt hexacyanoferrate
Cobalt hexacyanoferrate modified microband gold electrode and its electrocatalytic activity for oxidation of NADH (Cai et al.) 185
Cobalt(II) hexacyanoferrate
Electrolyte-cation-dependent coloring, electrochromism and thermochromism of cobalt(II) hexacyanoferrate(III,II) films (Kulesza et al.) 287
Cobalt phthalocyanine
Voltammetry of microcrystals of cobalt and manganese phthalocyanines (Komorsky-Lovrić) 211
Color display devices
Electrolyte-cation-dependent coloring, electrochromism and thermochromism of cobalt(II) hexacyanoferrate(III,II) films (Kulesza et al.) 287
Composite materials
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171

Conducting polymers
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171
Copper electrode
Cathodic formation of a hydroxyde adsorbate on copper (111) electrodes in alkaline electrolyte (Härtinger et al.) 335

Deposition potential
Influence of deposition potential on the voltammetric behaviour of potentiostatically formed platinized electrodes (Bakos, Horányi) 105
Diamond film
Structural analysis of a diamond film grown on a photoelectrochemically etched silicon substrate by micro-Raman spectroscopy (Hashimoto et al.) 339
Diffusion
Theoretical treatment of diffusion and kinetics in amperometric immobilized enzyme electrodes. Part I: Redox mediator entrapped within the film (Bartlett, Pratt) 61
Diffusion kinetics
Examination of the behavior of the fully implicit finite-difference algorithm with the Richtmyer modification: behavior with an exponentially expanding time grid (Feldberg, Goldstein) 1
Double-layer capacity
Adsorption of iodine ions on a quasi-perfect Cd(0001) electrode (Popov et al.) 301
Dropping zinc amalgam microelectrode
Establishment of an EEC mechanism for the Zn^{2+} |Zn(Hg) electrode reaction. A dropping zinc amalgam microelectrode study (Pérez et al.) 87

ECE processes
Theory of ECE processes at hemicylinder and band microelectrodes (Alden et al.) 11
EEC mechanism
Establishment of an EEC mechanism for the Zn^{2+} |Zn(Hg) electrode reaction. A dropping zinc amalgam microelectrode study (Pérez et al.) 87
Electroactivity
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Electroadsorption
SERS study of the adsorption of gelatin at a copper electrode in sulfuric acid solution (Brown, Hope) 293
Electrocatalysis
Fullerene film electrodes in aqueous solutions. Part 1. Preparation and electrochemical characterization (Szucs et al.) 191
Electrocatalyst
Particle size effects for oxygen reduction on dispersed silver + carbon electrodes in alkaline solution (Yang, Zhou) 271
Enhancement by surfactants of the activity and stability of iridium octaethyl porphyrin as an electrocatalyst for the four-electron reduction of dioxygen (Shi et al.) 321
Electrocatalytic oxidation
Cobalt hexacyanoferrate modified microband gold electrode and its electrocatalytic activity for oxidation of NADH (Cai et al.) 185
On the electrochemical reactivity of anomers: electrocatalytic oxidation of α- and β-D-glucose on platinum electrodes in acid and basic media (Largeaud et al.) 261
Electrochemically controlled nucleation and growth
Microelectrode substrates — a solution to current problems in surface-enhanced Raman spectroscopy (SERS) (Markwort, Hendra) 225
Electrochemical stability
Stability of polypyrrole and poly(3,4-ethylenedioxythiophene) for biosensor application (Yamato et al.) 163
Electrochemiluminescence
Simulation of electrochemiluminescence produced by a high-frequency square-wave potential waveform. Effects of ohmic drop and cell time constant on electrode potential, current and light emission (Pastore et al.) 19
Electrochromism
Electrolyte-cation-dependent coloring, electrochromism and thermochromism of cobalt(II) hexacyanoferrate(III,II) films (Kulesza et al.) 287
Electrode material
Particle size effects for oxygen reduction on dispersed silver + carbon electrodes in alkaline solution (Yang, Zhou) 271
Electrodeposition
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127
Electrodeposition of zinc + cobalt alloys: inhibitory effect of zinc with convection and pH of solution (Gómez, Vallés) 177
Electrodeposition conditions
Morphology and structure of nickel nuclei as a function of the conditions of electrodeposition (Gómez et al.) 111
Electrodes
Electrochemistry of a tetraruthenated cobalt porphyrin and its use in modified electrodes as sensors of reducing analytes (Araki et al.) 205
Electrogeneration
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171
Electropolymerization
Stability of polypyrrole and poly(3,4-ethylenedioxythiophene) for biosensor application (Yamato et al.) 163
Enzyme electrodes
Theoretical treatment of diffusion and kinetics in amperometric immobilized enzyme electrodes. Part I: Redox mediator entrapped within the film (Bartlett, Pratt) 61
ESR
In-situ ESR study on electrochemical lithium intercalation into petroleum coke (Zhuang et al.) 315
Etched silicon substrate
Structural analysis of a diamond film grown on a photoelectrochemically etched silicon substrate by micro-Raman spectroscopy (Hashimoto et al.) 339
Exponential time grid
Examination of the behavior of the fully implicit finite-difference algorithm with the Richtmyer modification: behavior with an exponentially expanding time grid (Feldberg, Goldstein) 1

Fast reactions
Measurement of fast kinetics with the microjet electrode: the CE mechanism (Martin, Unwin) 325
Fe(II)
Electrochemical study of the properties of iron ions in $ZnCl_2$ + 2NaCl melt at 450°C (Castrillejo et al.) 139
Ferrocene monocarboxylic acid
A study of the kinetics of the reaction between ferrocene monocarboxylic acid and glucose oxidase using the rotating-disc electrode (Bartlett, Pratt) 53
Film electrodes
Fullerene film electrodes in aqueous solutions. Part 1. Preparation and electrochemical characterization (Szucs et al.) 191
Film structure
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Flow visualization
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the

macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127

Fractality
The gold (210)|perchloric acid interface: impedance spectroscopy (Motheo et al.) 331

Fullerene
Fullerene film electrodes in aqueous solutions. Part 1. Preparation and electrochemical characterization (Szucs et al.) 191

Fully implicit finite-difference algorithm
Examination of the behavior of the fully implicit finite-difference algorithm with the Richtmyer modification: behavior with an exponentially expanding time grid (Feldberg, Goldstein) 1

Glossy carbon electrode
Electrochemical study of the properties of iron ions in $ZnCl_2 + 2NaCl$ melt at 450°C (Castrillejo et al.) 139

Glucose
On the electrochemical reactivity of anomers: electrocatalytic oxidation of α- and β-D-glucose on platinum electrodes in acid and basic media (Largeaud et al.) 261

Glucose mircosensors
Development and evaluation of glucose microsensors based on electrochemical codeposition of ruthenium and glucose oxidase onto carbon fiber microelectrodes (Sakslund et al.) 149

Glucose oxidase
A study of the kinetics of the reaction between ferrocene monocarboxylic acid and glucose oxidase using the rotating-disc electrode (Bartlett, Pratt) 53
Development and evaluation of glucose microsensors based on electrochemical codeposition of ruthenium and glucose oxidase onto carbon fiber microelectrodes (Sakslund et al.) 149
Amperometric enzyme electrode for sucrose determination prepared from glucose oxidase and invertase co-immobilized in poly(vinylferrocenium) (Gülce et al.) 217

(210) gold face
The gold (210)|perchloric acid interface: impedance spectroscopy (Motheo et al.) 331

Gold surfaces
A comparative electrochemical study of the coadsorption of bis-[10-(ferrocenylcarbonyl)decyl] disulfide and 10-ferrocenylcarbonyl-decanethiol with linear alkane disulfide and alkanethiol compounds on vapor-deposited gold surfaces (He et al.) 305

Growth morphology
Diffusion-limited kinetics in thin-gap electroless deposition (Kuhn, Argoul) 93

Hemicylinder microelectrodes
Theory of ECE processes at hemicylinder and band microelectrodes (Alden et al.) 11

High-frequency square-wave potential waveform
Simulation of electrochemiluminescence produced by a high-frequency square-wave potential waveform. Effects of ohmic drop and cell time constant on electrode potential, current and light emission (Pastore et al.) 19

Horseradish peroxidase
Characterization of regenerated silk fibroin membrane for immobilizing peroxidase and construction of an amperometric hydrogen peroxide sensor employing phenazine methosulphate as electron shuttle (Qian et al.) 157

Hydrodynamic effects
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127

Hydrogen evolution
A comparison of intensity modulated photocurrent spectroscopy and photoelectrochemical impedance spectroscopy in a study of photoelectrochemical hydrogen evolution at p-InP (Ponomarev, Peter) 45

Hydrogen peroxide
Characterization of regenerated silk fibroin membrane for immobilizing peroxidase and construction of an amperometric hydrogen peroxide sensor employing phenazine methosulphate as electron shuttle (Qian et al.) 157

Hydrophilic surfactant
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127

Hydrophobic electrode
The hydrophobic electrode (Kurtyka, De Levie) 311

Impedance spectroscopy
Morphology and structure of nickel nuclei as a function of the conditions of electrodeposition (Gómez et al.) 111
The gold (210)|perchloric acid interface: impedance spectroscopy (Motheo et al.) 331

Invertase
Amperometric enzyme electrode for sucrose determination prepared from glucose oxidase and invertase co-immobilized in poly(vinylferrocenium) (Gülce et al.) 217

Iodine ions
Adsorption of iodine ions on a quasi-perfect Cd(0001) electrode (Popov et al.) 301

Iridium porphyrin
Enhancement by surfactants of the activity and stability of iridium octaethyl porphyrin as an electrocatalyst for the four-electron reduction of dioxygen (Shi et al.) 321

Kinetics
Theoretical treatment of diffusion and kinetics in amperometric immobilized enzyme electrodes. Part I: Redox mediator entrapped within the film (Bartlett, Pratt) 61

Lithium intercalation
In-situ ESR study on electrochemical lithium intercalation into petroleum coke (Zhuang et al.) 315

Macromorphology
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127

Manganese carbonyl complexes
Anodic infrared spectroelectrochemistry of mono- and dinuclear complexes containing the $(\eta^5\text{-}C_5H_4R)Mn(CO)_2L$ moiety (L = CO or PR_3) (Atwood et al.) 279

Manganese phthalocyanine
Voltammetry of microcrystals of cobalt and manganese phthalocyanines (Komorsky-Lovrić) 211

Metallophthalocyanines
Voltammetry of microcrystals of cobalt and manganese phthalocyanines (Komorsky-Lovrić) 211

Metallopolymer film
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119

Microelectrode
Microelectrode substrates — a solution to current problems in surface-enhanced Raman spectroscopy (SERS) (Markwort, Hendra) 225

Microelectrodes
Cobalt hexacyanoferrate modified microband gold electrode and its electrocatalytic activity for oxidation of NADH (Cai et al.) 185

Microjet electrode
Measurement of fast kinetics with the microjet electrode: the CE mechanism (Martin, Unwin) 325

Micro-raman spectroscopy
Structural analysis of a diamond film grown on a photoelectrochemically etched silicon substrate by micro-Raman spectroscopy (Hashimoto et al.) 339
Molecular selectivity
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Molecular structure
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Molten salts
Electrochemical study of the properties of iron ions in $ZnCl_2 + 2NaCl$ melt at 450°C (Castrillejo et al.) 139
Monolayers
A comparative electrochemical study of the coadsorption of bis-[10-(ferrocenylcarbonyl)decyl] disulfide and 10-ferrocenylcarbonyldecanethiol with linear alkane disulfide and alkanethiol compounds on vapor-deposited gold surfaces (He et al.) 305
Morphology
Morphology and structure of nickel nuclei as a function of the conditions of electrodeposition (Gómez et al.) 111
Multiple redox centre systems
Electrochemical responses of bilayer electrodes with Prussian blue as the 'inner' layer and electroactive cation-incorporated Nafion® as the 'outer' layer (Mortimer) 79

NADH
Cobalt hexacyanoferrate modified microband gold electrode and its electrocatalytic activity for oxidation of NADH (Cai et al.) 185
Nafion®
Electrochemical responses of bilayer electrodes with Prussian blue as the 'inner' layer and electroactive cation-incorporated Nafion® as the 'outer' layer (Mortimer) 79
Nickel nuclei
Morphology and structure of nickel nuclei as a function of the conditions of electrodeposition (Gómez et al.) 111
Numerical methods
Impedance of porous electrodes (Lasia) 27

Ohmic drop
Simulation of electrochemiluminescence produced by a high-frequency square-wave potential waveform. Effects of ohmic drop and cell time constant on electrode potential, current and light emission (Pastore et al.) 19
Organosulphur compounds
A comparative electrochemical study of the coadsorption of bis-[10-(ferrocenylcarbonyl)decyl] disulfide and 10-ferrocenylcarbonyldecanethiol with linear alkane disulfide and alkanethiol compounds on vapor-deposited gold surfaces (He et al.) 305
Oxygen reduction
Particle size effects for oxygen reduction on dispersed silver + carbon electrodes in alkaline solution (Yang, Zhou) 271

Permeability
Toward molecular selectivity with chemically modified electrodes: can electroactivity and permeability through an overlaying metallopolymer film be controlled via rational manipulation of internal architecture? (Yan, Hupp) 119
Petroleum coke
In-situ ESR study on electrochemical lithium intercalation into petroleum coke (Zhuang et al.) 315
Phenazine methosulphate
Characterization of regenerated silk fibroin membrane for immobilizing peroxidase and construction of an amperometric hydrogen peroxide sensor employing phenazine methosulphate as electron shuttle (Qian et al.) 157
Platinization
Influence of deposition potential on the voltammetric behaviour of potentiostatically formed platinized electrodes (Bakos, Horányi) 105
Platinized electrodes
Influence of deposition potential on the voltammetric behaviour of potentiostatically formed platinized electrodes (Bakos, Horányi) 105
Polarization curves
Silver reduction in a thiosulphate + nitrate solution: study of a CE reaction scheme by means of polarization curves and ac impedance (Vandeputte et al.) 249
Polyelectrolytes
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171
Polypyrrole
Electrogeneration of a composite polypyrrole-carboxymethylcellulose: kinetic study (Otero, Vázquez) 171
Bioelectrochemical response of the polypyrrole xanthine oxidase electrode (Xue, Mu) 241
Poly(vinylferrocenium)
Amperometric enzyme electrode for sucrose determination prepared from glucose oxidase and invertase co-immobilized in poly(vinylferrocenium) (Gülce et al.) 217
Porous electrodes
Impedance of porous electrodes (Lasia) 27
Porphyrins
Electrochemistry of a tetraruthenated cobalt porphyrin and its use in modified electrodes as sensors of reducing analytes (Araki et al.) 205
Prussian blue
Electrochemical responses of bilayer electrodes with Prussian blue as the 'inner' layer and electroactive cation-incorporated Nafion® as the 'outer' layer (Mortimer) 79

Reaction kinetics
A study of the kinetics of the reaction between ferrocene monocarboxylic acid and glucose oxidase using the rotating-disc electrode (Bartlett, Pratt) 53
Redox reactions
Electrolyte-cation-dependent coloring, electrochromism and thermochromism of cobalt(II) hexacyanoferrate(III,II) films (Kulesza et al.) 287
Reducing analytes
Electrochemistry of a tetraruthenated cobalt porphyrin and its use in modified electrodes as sensors of reducing analytes (Araki et al.) 205
Regenerated silk fibroin
Characterization of regenerated silk fibroin membrane for immobilizing peroxidase and construction of an amperometric hydrogen peroxide sensor employing phenazine methosulphate as electron shuttle (Qian et al.) 157
Richtmyer modification
Examination of the behavior of the fully implicit finite-difference algorithm with the Richtmyer modification: behavior with an exponentially expanding time grid (Feldberg, Goldstein) 1
Rotating-disc electrode
A study of the kinetics of the reaction between ferrocene monocarboxylic acid and glucose oxidase using the rotating-disc electrode (Bartlett, Pratt) 53
Ruthenium
Development and evaluation of glucose microsensors based on electrochemical codeposition of ruthenium and glucose oxidase onto carbon fiber microelectrodes (Sakslund et al.) 149

Self-assembly
A comparative electrochemical study of the coadsorption of bis-[10-(ferrocenylcarbonyl)decyl] disulfide and 10-ferrocenylcarbonyl-

decanethiol with linear alkane disulfide and alkanethiol compounds on vapor-deposited gold surfaces (He et al.) 305
Sensors
Electrochemistry of a tetraruthenated cobalt porphyrin and its use in modified electrodes as sensors of reducing analytes (Araki et al.) 205
SERS microscopy
Microelectrode substrates — a solution to current problems in surface-enhanced Raman spectroscopy (SERS) (Markwort, Hendra) 225
SERS spectroscopy
SERS study of the adsorption of gelatin at a copper electrode in sulfuric acid solution (Brown, Hope) 293
Silver aggregates
Diffusion-limited kinetics in thin-gap electroless deposition (Kuhn, Argoul) 93
Silver + carbon
Particle size effects for oxygen reduction on dispersed silver + carbon electrodes in alkaline solution (Yang, Zhou) 271
Silver deposit
Microelectrode substrates — a solution to current problems in surface-enhanced Raman spectroscopy (SERS) (Markwort, Hendra) 225
Silver reduction
Silver reduction in a thiosulphate + nitrate solution: study of a CE reaction scheme by means of polarization curves and ac impedance (Vandeputte et al.) 249
Stability
Fullerene film electrodes in aqueous solutions. Part 1. Preparation and electrochemical characterization (Szucs et al.) 191
Sucrose
Amperometric enzyme electrode for sucrose determination prepared from glucose oxidase and invertase co-immobilized in poly(vinylferrocenium) (Gülce et al.) 217
Surfactant
Enhancement by surfactants of the activity and stability of iridium octaethyl porphyrin as an electrocatalyst for the four-electron reduction of dioxygen (Shi et al.) 321

Temperature effects
Adsorption of iodine ions on a quasi-perfect Cd(0001) electrode (Popov et al.) 301
Tetraruthenated cobalt porphyrin
Electrochemistry of a tetraruthenated cobalt porphyrin and its use in modified electrodes as sensors of reducing analytes (Araki et al.) 205
Texture
Morphology and structure of nickel nuclei as a function of the conditions of electrodeposition (Gómez et al.) 111
Thermochromism
Electrolyte-cation-dependent coloring, electrochromism and thermochromism of cobalt(II) hexacyanoferrate(III,II) films (Kulesza et al.) 287
Thin-gap cells
Diffusion-limited kinetics in thin-gap electroless deposition (Kuhn, Argoul) 93
Two dimensional cell
Quasi-one-dimensional steady-state analysis of multi-ion electrochemical systems at a rotating disc electrode controlled by diffusion, migration, convection and homogeneous reactions (Van Den Bossche et al.) 35

Voltammetric behaviour
Influence of deposition potential on the voltammetric behaviour of potentiostatically formed platinized electrodes (Bakos, Horányi) 105
Voltammetry
Voltammetry of microcrystals of cobalt and manganese phthalocyanines (Komorsky-Lovrić) 211

Xanthine oxidase
Bioelectrochemical response of the polypyrrole xanthine oxidase electrode (Xue, Mu) 241

Zinc
Hydrodynamic effects of hydrophilic 'Alconox' surfactant on the macromorphology of electrodeposited zinc and flow visualization (Jaksic, Komnenic) 127
Zinc + cobalt
Electrodeposition of zinc + cobalt alloys: inhibitory effect of zinc with convection and pH of solution (Gómez, Vallés) 177
Zn^{2+} |Zn(Hg) electrode reaction
Establishment of an EEC mechanism for the Zn^{2+} |Zn(Hg) electrode reaction. A dropping zinc amalgam microelectrode study (Pérez et al.) 87
